# English Language Setting in the Information Portal

The Information Portal is becoming more and more international. On this occasion, we would like to point out that you can make a language selection between German and English in the Information Portal.

You can do this by clicking on the three dots next to "Information Portal" in the left menu bar and then selecting English under "Alternativsprache wechseln (Change alternative language)".

This way, you have made a presetting that your Information Portal is bilingual.

To display documents that are also available in English (recognizable by the red frame), you have to click once on „DE/EN" in the upper right corner next to your name. Then the language changes from German to English. If you click on it again, it will switch back.
