

[EN] Getting started

New to university and not quite sure how Stud.IP works? Don't worry: You'll find the most important information here at a glance to help you get off to a good start in your studies.

Getting Started

You can find Stud.IP at the following URL <https://studip.tu-braunschweig.de>

You can log in there using the field in the upper-left corner with your TUBS ID (y-number) or with the login credentials from another university in Lower Saxony.

To log in with a different ID, [please check this page](#) to find out which login you need to use.

On the landing page, you can switch the language to English. This setting also applies to the account you log in to. You can change the language at any time later in the settings.

When you log in for the first time, Stud.IP offers you a short tour. It will help you find your way around the system. Please take a moment to go through it. You can also close the tour and start it again later by clicking on the question mark in the upper right corner, below the Stud.IP logo.

The screenshot shows the Stud.IP interface for TU Braunschweig. The top navigation bar includes the university name, a search bar, and a user profile icon. Below this is a row of icons for home, courses, documents, help, mail, users, profile, calendar, search, and a badge. The main content area is divided into a left sidebar and a main panel. The sidebar contains sections for 'My courses' (with 'Current courses' and 'Archived courses' tabs), 'Semesterfilter' (set to 'WiSe 2026/27'), 'Actions' (with options like 'Mark all as read', 'Change colour grouping', 'Add a course', and 'Create new study group'), and 'Grouping' (with options like 'Standard', 'Field of study', 'Type', 'Groups by colour', and 'Lecturers'). The main panel displays 'Entries on registration and waiting list' for 'WiSe 2026/27'. A table lists entries with columns for 'No.', 'Name', and 'Content'. The first entry is 'Beispiel Veranstaltung im jeweiligen Semester 1'. The second entry is 'Eine Veranstaltungsnummer ist nicht vergeben.' with a 'Vorlesung/Übung: Mein schöner Testraum. (unlimited)' content. The third entry is 'Research group: Zusatzangaben Bilder (unlimited)'. The fourth entry is 'Course overview: Stud.IP-Online-Schulungen (unlimited)'. The fifth entry is 'Einführungskurs: "Stud.IP Schulungen in...'. A 'Hints & help' dropdown menu is open, showing 'Help tours' and 'My courses (students)' highlighted with red circles. The menu also includes 'Further help' and a close button.

General information	
Course name	Online-Kurs: 9090008-V Was mit Medien: Onlinekurs
Course number	9090008-V
Semester	SoSe 2026
Current number of participants	340
Home institute	Projekthaus
Courses type	Online-Kurs in category Teaching
	Absolvierung der Aufgaben und Abgabe eines Portfolios am Ende des Kurses.
Performance record	Neben der Bearbeitung der Aufgaben im Online-Kurs spielt die weitergehende Lektüre und Alltagsreflexion im Selbststudium eine große Rolle.
	Die Studierenden erhalten im Onlinekurs im Umfang von 2 - 3 CP die Möglichkeit, medientheoretisch fundierte Perspektiven kennenzulernen und diese sowohl analytisch reflektierend, als auch praktisch auf ihr alltägliches Leben, Lernen und Arbeiten anzuwenden. Ziel ist die Vermittlung von Kompetenzen zum

In TUconnect, you can view all the courses in your degree program in the course catalog. On the course details page, you'll also find a link to the course in Stud.IP.

Registration for your course takes place in Stud.IP.

On the course homepage, you will find the admission requirements, the registration period, and the registration process under "Admission settings." If the course is locked, the instructors have not (yet) established a registration procedure.

Admission settings

The course is part of admission "Anmeldung mit Passwort: Was mit Medien: Onlinekurs".
 The following rules apply for the admission:

- Password required.

If you missed the registration period but urgently need to attend the course, please contact the instructors directly.

Assigning a Degree Program

Your academic data is automatically imported from TUconnect. You do not need to enter it yourself.

At the start of the semester, however, it's possible that your information isn't updated in time for the start of registration. This can happen, for example, if your re-enrolment was processed late.

Important: Your Stud.IP account is first created after your first login. The nightly update can only transfer your information after that.

Please make sure to check in advance whether your academic information is up to date. Some courses are only open to students in certain degree programs. If your degree program or semester has not yet been updated a few days before registration, please contact Stud.IP Support (studip@tu-braunschweig.de) with your current certificate of enrolment. We will then manually update your information so that you can register for your courses without any issues.

Revision #2
